

Apache Maven

Beginner to Guru

Maven Archetypes

Maven Archetypes

- Maven Archetypes are project templates
- **Archetype** - “An original pattern or model from which all other things of the same kind are made.”
- Apache Maven provides a variety of standard archetypes to serve as starters for common Java projects
- Maven Archetypes are also available from a variety of 3rd parties
- Some of the archetypes are getting rather dated.
 - ie - J2EE
